Applicant(s): YATO

Application No.: 10/726,591

Filed: December 4, 2003

Title: NAVIGATION DEVICE

Attorney Docket No.: 01-523

Group Art Unit: 3661

Examiner: NGUYEN, THU V

Commissioner for Patents  
Arlington, VA 22202

October 21, 2004

**RESPONSE TO ELECTION OF SPECIES**

Sir:

In response to the Election of Species Requirement mailed on October 6, 2004 in connection with the above application, Applicant hereby elects Species 1 (claims 1 – 3, 6, 8) with traverse.

Applicant states that Species 1 (claims 1 – 3, 6, 8) is shown in Figs. 1-7, rather than in Figs. 1-6 as asserted by the Examiner, and is drawn generally to correcting time to the destination according to a designation of a change in current time in the clock by a user, or based on an automatic change of current time based on the user's movement. Regarding Fig. 7, the Examiner should note that the embodiment in Fig. 7 is a modification of the first embodiment as discussed, for example, in connection with Figs. 5 and 6. Specifically, in the first embodiment as shown in Figs. 5 and 6, a destination time is automatically changed when a user changes the present time. In the embodiment shown in Fig. 7, both the present time and the destination time are automatically changed based on the user's movement.

In contrast, the second embodiment as shown in Figs. 8-10 (and not Fig. 7 as asserted by the Examiner) enables the user to determine an arrival time at a destination based on the time

Serial No. 10/726,591

standard used at the destination and to thereby grasp a relation with the activities around the destination. (See page 14, lines 7-11.)

Examination of the present application in view of the above election is respectfully requested.

Please charge any necessary fees to Deposit Account 50-1147.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'DGP' with a stylized flourish extending to the right.
